

Ai1 600EXP

Enhanced Falls Management

Facilitate purposeful early mobility with an ultra-low bed height and 3-zone bed exit connectivity designed to create a safer environment.

Low Bed Height

Enhance safe ambulation and minimize falls with a lower bed height that fits individual patient needs

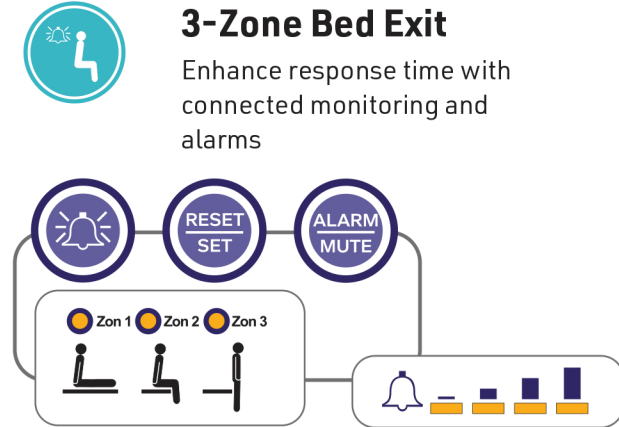

Easy-View, Split Siderails

Ergonomically designed to optimize patient visibility while assisting active patient repositioning with easy-grip hand holds

3-Zone Bed Exit

Enhance response time with connected monitoring and alarms

Under Bed Light

Softly illuminates bed silhouette for improved night-time visibility yet minimizes sleep disruption
