

IMMERSATURN

PULMONARY

Turn into comfort, simple and easy

Rest easy knowing the ImmersaTurn mattress will help deliver the care when and where you need it. ImmersaTurn; advanced technology meets compassionate healing.

Crafted for the acute care hospital, the ImmersaTurn mattress is your partner in patient care. Designed to address the critical needs of pressure redistribution and enhanced pulmonary function, it seamlessly blends state-of-the-art technology with patient-centric comfort. Its gentle lateral rotation mechanism offers a proactive approach to pressure injury prevention and management. By effortlessly shifting body weight, it reduces pressure points, promoting healthy circulation and preventing the development of painful bedsores. Additionally, the ImmersaTurn's 40 degree turn design aids in improving pulmonary function, making it a valuable asset for patients who require respiratory support.
